

# EPT-400 Series Pumping Trap

Carbon Steel, In-Line Connections

For capacities up to 7 310 kg/h (steam motive)... Discharge per cycle 29 liters

Condensate Recovery Equipment

The Armstrong EPT-400 Series Vertical Pump Trap is the low maintenance, non-electric solution to move condensate or other liquids from low points, low pressures or vacuum spaces to an area of higher elevation or pressure. Condensate can be returned at temperatures well above the 99°C limit of conventional electric condensate pumps without the headaches of leaking seals or cavitation problems.

## Features

- Non-electric – Uses inexpensive steam, air or gas to operate the pump trap
- Explosion proof – Intrinsically safe
- AD-Merkblätter carbon steel or stainless steel body vessel
- Low maintenance – No leaking seals, impeller or motor problems
- All stainless steel internals with durable Inconel X-750 springs
- Externally removable/replaceable seats – Valve and seats can be replaced or cleaned without removing pump cap from body

**Table CRE-224-1. EPT-400 Pumping Trap Physical Data**

Model Number	EPT-404	EPT-406	EPT-408	EPT-412
	mm	mm	mm	mm
"C" (diameter)	400	400	400	400
"G"	260	260	260	260
"H"	710	710	710	710
"R"	240	240	240	240
"T"	305	305	305	305
"U"	57	57	57	57
"V"	552	552	552	552
"Z"	680	710	730	750
Cap Removal	400	400	400	400
Weight (kg)	67	71	75	88
Number of Cap Bolts	8	8	8	8

Maximum Allowable Pressure (Vessel Design) 10 barg @ 250°C.  
Maximum Operating Pressure 9 barg.  
All models are CE Marked according to the PED (97/23/EC).

Notes: Above capacities are the results of actual steam testing using a minimum 93°C condensate. Published capacities are based on the use of external check valves supplied by Armstrong. Fill head measured from drain point to top of pump cap. Discharge per cycle: 29 liters.

Model	Filling Head (mm)				
	0	150	300	600	900
EPT-404	0,70	0,85	1,00	1,30	1,40
EPT-406	0,70	0,85	1,00	1,20	1,35
EPT-408	0,70	0,70	1,00	1,20	1,35
EPT-412	0,70	0,85	1,00	1,08	1,20

Note: Filling head is measured from drain of receiver to top of pump's cap.

## Options

- Stainless 316L Body and Cap
- Gauge Glass Assembly with Guards (Brass or Cadmium Plated Carbon Steel)
- Digital Cycle Counter (Open or Closed Systems; with or without Auxiliary contacts)
- Insulation Jacket

This pump might be suitable for special applications. Please consult factory
